Study

Bachelor of Software Engineering

UC Leuven-Limburg (UCLL) | Leuven
Expected Graduation: 2026

Skills

Languages:

HTML
CSS
JavaScript
TypeScript
Java
C#

Frameworks and Libraries:

Angular
Spring Boot
Cypress
Pytest

Environments and Tools:

Git
GitHub
GitLab
Git Bash
Postman
SQL Server

Landuages

Ukrainian-native
English-C1
Dutsh-B2

About Me

My name is Viktor, and I am always striving for self-improvement. Ukrainian is my native language, but I am proficient in English at a C1 level and Dutch at a B2 level, which I learned from scratch in just seven months. I have experience working at Siemens as a QA, where I performed testing on Cypress, and I also completed a one-month internship for a student project involving Pytest. I excel both in team environments and working independently, and my ability to learn quickly and my discipline allow me to adapt to new challenges. Currently, I am studying in the programming course at UCLL.

Professional Experience

QA Engineer Intern | PyTest API Testing

Siemens Digital Industries Software

Apr 2024 – May 2024

1. Conducted API testing on Siemens TestLab RT using PyTest.
2. Refactored existing test cases and developed new ones to improve testing efficiency.
3. Collaborated closely with the development team to ensure the robustness of the API testing processes.

Skills: Ubuntu, PyTest

QA Engineer Intern | Cypress Automation

Siemens Digital Industries Software

Jul 2023 – Sep 2023

1. Performed end-to-end (E2E) testing on Siemens TestLab RT using Cypress.
2. Refactored legacy tests and authored new ones to enhance the software quality.
3. Collaborated with developers to identify and resolve issues, improving overall software performance.

Skills: GitLab, Git, JavaScript, Cypress
